8.2 Amendments to the Articles of Association as a consequence of the merger etc.

As a part of the approval of the merger with Norsk Hydro ASA's petroleum activities the general meeting in Statoil AS shall adopt certain amendments to the Articles of Association, so that the Articles of Association, from the date that the merger becomes effective, will be in accordance with Annex 6 to the Merger plan. On redemption, Statoil ASA shall pay a price per share to the state corresponding to the volume-weighted average of the price paid by Statoil ASA for shares bought in the market, plus interest from the time of each individual repurchase until payment is effected. The capital reduction is conditional on giving notice to the creditors. A confirmation from the auditor that the company's remaining tied-up equity will be fully covered after the reduction is enclosed with the invitation to the general meeting.

Proposed resolution:

“The company's share capital is reduced by NOK 50,397,120 by

9 CAPITAL REDUCTION – STRIKING-OFF OF TREASURY SHARES AND REDEMPTION OF SHARES HELD BY THE STATE

It follows from the Merger plan that the number of shares to be issued as consideration to the shareholders in Norsk Hydro ASA is based on cancellation by Statoil ASA of 5,867,000 treasury shares and redemption of 14,291,848 shares belonging to the state represented by the Norwegian Ministry of Petroleum and Energy. The capital reduction involved in the cancellation/redemption of shares shall be implemented before the effective date of the merger. The state's shares will be redeemed in accordance with agreements entered into with the state. On redemption, Statoil ASA shall pay a price per share to the state corresponding to the volume-weighted average of the price paid by Statoil ASA for shares bought in the market, plus interest from the time of each individual repurchase until payment is effected. The capital reduction is conditional on giving notice to the creditors. A confirmation from the auditor that the company's remaining tied-up equity will be fully covered after the reduction is enclosed with the invitation to the general meeting.

Proposed resolution:

“The company's share capital is reduced by NOK 50,397,120 by

(i) cancellation of 5,867,000 treasury shares, and (ii) redemption of 14,291,848 shares held by the state represented by the Norwegian Ministry of Petroleum and Energy through the payment of NOK 2 441 899 894 to the state represented by the Ministry of Petroleum and Energy. The amount corresponds to the average volume-weighted price of the company's repurchases of own shares in the market with the addition of interest. The amount paid in excess of the nominal share price shall be charged to the premium fund.”

With effect from the effective date of the capital reduction, Article 3 of the Articles of Association shall be amended to read:
