The fourth quarter 2016 dividend accrues to the shareholders of the company as of 11 May 2017 as registered in Statoil's shareholder register with the Norwegian Central Securities Depository (VPS) as of expiry of 15 May 2017 (the "Record Date"). ## **7. Authorisation to distribute dividend based on approved annual accounts for 2016**

Statoil has paid quarterly dividend since 2014. The dividend resolutions for the first quarter to the third quarter have been resolved by the board of directors based on an authorisation provided by the general meeting, cf. the Norwegian Public Limited Liability Companies Act section 8-2 second paragraph.

The board of directors proposes that the general meeting provides an authorisation to the board of directors to resolve the payments of quarterly dividends based on the company's approved annual accounts for 2016. Statoil will announce dividend payments in connection with the respective quarterly results. Payment of the quarterly dividend is expected to take place approximately five months after the announcement of the quarterly results.

As further set out in agenda item 8 below, the board of directors proposes to continue the scrip dividend programme which will also cover dividend resolved in accordance with the authorisation in this agenda item 7. For the sake of good order, the authorisation to the board of directors to distribute dividend in accordance with the authorisation will also be effective if the continuation of the scrip dividend programme is not resolved by the general meeting.

Proposed resolution:

*"The general meeting of Statoil ASA hereby authorises the board of directors to resolve the payments of dividend based on the company's approved annual accounts for 2016, cf. the Norwegian Public Limited Liability Companies Act section 8-2, second paragraph.*

*The board of directors shall, when using the authorisation, make its decision in accordance with the company's approved dividend policy. The board of directors shall before each decision to approve the payment of dividends consider if the company, after the payment of dividends, will have sufficient equity and liquidity.*

*As further set out in agenda item 8 below, the board of directors may resolve that the shareholders may choose to receive their dividend wholly or partially in cash or in newly issued shares.*

*The authorisation shall be valid until the next annual general meeting, but not beyond 30 June 2018."*

## **8. Continuation of the scrip dividend programme**

The board of directors considers the dividend policy an important commitment to the company's shareholders and the dividend policy remains firm. The board of directors considers further strengthening of Statoil's financial robustness and capacity to be desirable also through 2017. Anchored in the dividend policy and similar to the proposal adopted by the annual general meeting on 11 May 2016, the board of directors therefore proposes to the annual general meeting on 11 May 2017 to continue the scrip dividend programme through third quarter 2017.

Under the scrip dividend programme, the shareholders may choose to receive the net dividend in either cash or newly issued ordinary shares or ADRs (American Depositary Receipts) in the case of ADR holders in Statoil. Net dividend means the dividend after deduction of any applicable withholding tax. Shareholders who wish to receive new shares must make a subscription of shares whereby the contribution for the new shares will be settled by way of set-off against the net dividend the shareholders are entitled to. All subscriptions will be rounded down to the nearest whole number of shares. Any part of the net dividend not used for subscription of shares, will be paid in cash. Shareholders who choose to receive all of their net dividend in shares, but whose net dividend does not exceed the subscription price for one share will receive their dividend paid in cash. Shareholders who have not subscribed for dividend shares at the time of expiry of the subscription will be paid the dividend amount the relevant shareholder is entitled to in cash without any action on its part.

The subscription price for each dividend issue shall be determined by the board of directors. The subscription price for the shareholders on the Oslo Stock Exchange shall be equal to the volume-weighted average share price on the Oslo Stock Exchange, with a deduction for a percentage discount determined by the board of directors for each dividend issue. The subscription price for the fourth quarter 2016 shall be set to the volume-weighted average share price on Oslo Stock Exchange of the last two trading days of the subscription period with a deduction for a discount of 5%. The board of directors, at their sole discretion, will for the remaining dividend issues determine the number of trading days to calculate the volume-weighted average share price, notwithstanding that the relevant trading day(s) shall be the last trading day(s) of the subscription period and that the calculation may not include more than five trading days. The discount will be determined at the board of directors' sole discretion, but for the first quarter to the third quarter 2017 the discount may not exceed 10%. The subscription price for the ADR holders will be equal to the subscription price for the shareholders on Oslo Stock Exchange converted into USD using the Central Bank of Norway's average USD exchange rate over the same days as is included in the calculation of the subscription price.

The subscription of shares shall be made electronically through the VPS' online subscription system available via a link on Statoil's web site. Subscriptions may also be made on a separate subscription form, cf. section 10-7 of the Norwegian Public Limited Liability Companies Act.

The dividend issue for the fourth quarter of 2016 will be resolved by the annual general meeting, while the dividend issues for the three first quarters of 2017 will be resolved by the board of directors and based on the authorisation from the annual general meeting. The board of directors may, at their sole discretion, resolve to not offer dividend shares for a particular quarter or to cancel the scrip dividend programme.

Statoil and the Norwegian State represented by the Ministry of Petroleum and Energy (the Ministry), have entered into a two-year agreement whereby the Ministry firstly undertakes to vote in favour of the resolutions in the annual general meetings in 2016 and 2017 to (i) increase the share capital in connection with payment of dividend for fourth quarter 2015 and fourth quarter 2016, (ii) grant the board of directors authorisation to distribute quarterly dividend based on the approved annual accounts for 2015 and 2016 and (iii) grant the board of directors authorisation to increase the share capital in connection with payment of dividend for first quarter through third quarter 2016 and first quarter through third quarter 2017. Furthermore, the Ministry has undertaken to participate in the scrip dividend programme. Pursuant to the agreement entered into with the Ministry, the Norwegian State will use the part of its quarterly dividend to subscribe for the number of shares that is required to maintain its ownership interest of 67% in Statoil. Any part of the dividend not used as settlement for new shares by the Norwegian State shall be paid in cash. Reference is made to Proposition to the Norwegian Parliament "Prop. 48 S (2015-2016) Deltakelse i utbytteaksjeprogram og kapitalforhøyelse i Statoil ASA" for further information about the Norwegian State's participation in the scrip dividend programme.

Further information regarding the scrip dividend programme is available at [www.statoil.com/agm](http://www.statoil.com/agm). The new shares may not be subscribed for by shareholders in jurisdictions in which it is not permitted to offer new shares without the registration or approval of a prospectus.

On this background the board of directors proposes that the shareholders approves continuation of the scrip dividend programme for the fourth quarter 2016 and through the first three quarters of 2017 by resolving the following resolutions:

#### **8.1. Share capital increase for issue of new shares in connection with payment of dividend for fourth quarter 2016**

In order to implement the scrip dividend programme for fourth quarter 2016, the board of directors proposes that the general meeting resolves a share capital increase whereby each shareholder may choose to use the net dividend the relevant shareholder is entitled to for the fourth quarter 2016 to subscribe for shares in the company. The shareholders may elect to use their net dividend to subscribe for shares in whole or in part. Any part of the net dividend not used for subscription of shares, will be paid in cash. The subscription price for the dividend shares which are subscribed for by the shareholders, will be settled by way of set-off against the net dividend the shareholders are entitled pursuant to agenda item 6 above. It is not permitted to settle the subscription price by a different manner than set-off against the net dividend.

Proposed resolution:

*"The general meeting of Statoil ASA hereby resolve to increase the share capital on the following terms and conditions:*

- 1. The share capital is increased with an amount of minimum NOK 2.50 and maximum NOK 400,000,000. The new shares shall have a nominal value of NOK 2.50.*
- 2. The subscription price:*
  - a. For shareholders on Oslo Stock Exchange the subscription price is equal to the volume-weighted average share price on Oslo Stock Exchange of the last two trading days of the subscription period for the dividend issue, with a deduction for a discount of 5%. The subscription price may not be lower than NOK 50 or higher than NOK 500 per share.*
  - b. For ADR-holders under the ADR program in the US, the subscription price shall be equal to the subscription price for the shareholders on Oslo Stock Exchange converted into USD based on an average of the Central Bank of Norway's USD exchange rate over the last two trading days of the subscription period. The subscription price may not be lower than USD 5 or higher than USD 50 per share.*
- 3. Only shareholders of Statoil as of the expiry of 11 May 2017 for shareholders on Oslo Stock Exchange, as registered in Statoil's shareholder register with the Norwegian Central Securities Depository (VPS) as of expiry of 15 May 2017, and shareholders as of expiry of 10 May 2017 for shareholders on New York Stock Exchange, are entitled to subscribe for shares.*
- 4. The new shares may not be subscribed for by shareholders in jurisdictions in which subscription would be unlawful for the relevant shareholder or it is not permitted to offer new shares without the registration or approval of a prospectus.*

5. *Subscription of the new shares shall be carried out in accordance with the following:*
  - a) *Each of these shareholders can choose to receive their dividend wholly or partially in cash or newly issued shares and therefore are entitled to use in whole or in part the net dividends that the relevant shareholder is entitled to for the fourth quarter of 2016, to subscribe for shares in the company. The contribution will be settled by way of set-off against the subscribers' entitlement to net dividend from the company. Dividend in USD which shall be used as contribution shall be converted into NOK by using the same exchange rate between USD and NOK as set out under item 2 b) above. All subscriptions will be rounded down to the nearest whole number of shares. Any part of the net dividend not used to settle the subscribed shares, shall be paid in cash.*
  - b) *The Norwegian State has undertaken to participate in the dividend offer by using the part of its quarterly dividend to subscribe for the number of shares that is required to maintain its ownership interest of 67% in Statoil.*
6. *Each shareholder will be allocated the number of shares equal to the amount each shareholder has subscribed for during the subscription period, cf. item 5 above, divided by the subscription price, cf. item 2 above. No fractional shares will be allocated.*
7. *The subscription period shall commence at the latest on or around 29 May 2017. The subscription period shall be at least 10 business days. Subscription of shares shall take place electronically or on a designated subscription form within the expiry of the subscription period.*
8. *ADR-holders under the ADR program in the US may make their election through Deutsche Bank as the depositary and receiving agent for the ADR program.*
9. *The new shares give shareholders rights in the company, including the right to dividends, from the registration of the share capital increase in the Norwegian Register of Business Enterprises. At the same time, section 3 of the Articles of Association shall be amended to reflect the new share capital.*
10. *The estimated costs for the share capital increase are NOK 5 million."*

KPMG has prepared a statement according to the Norwegian Public Limited Liability Companies Act section 2-6 first and second paragraph, cf. section 10-2 third paragraph. The statement is available at [www.statoil.com/agm](http://www.statoil.com/agm).

## **8.2. Authorisation to the board of directors to increase the share capital in connection with payment of dividend for first quarter through third quarter 2017**

In order to implement the scrip dividend programme for first quarter through third quarter 2017, the board of directors proposes that the general meeting provides an authorisation to the board of directors to increase the share capital in the company. It is a precondition for this proposal that the general meeting resolves the proposal to increase the share capital by issuing new shares in connection with the distribution of dividend for the fourth quarter of 2016 in item 8.1. This authorisation must also be viewed in conjunction with the authorisation to distribute dividends, see agenda item 7 above.

The authorisation to increase the share capital may only be utilised to increase the share capital in order to implement the scrip dividend programme for first quarter through third quarter 2017 as described above. It is thus proposed that the authorisation may be used to increase the share capital against contribution in kind.

The authorisation to the board of directors entails that the board of directors will determine the subscription price for each dividend issue. As set out above under the introduction to agenda item 8 the subscription price for the shareholders on Oslo Stock Exchange shall be equal to the volume-weighted average share price on the Oslo Stock Exchange, with a deduction for a percentage discount determined by the board of directors for each dividend issue. The board of directors shall, at their sole discretion, determine the number of trading days to calculate the volume-weighted average share price, notwithstanding that the relevant trading day(s) shall be the last trading day(s) of the subscription period and that the calculation may not include more than five trading days. The discount will be determined at the board of directors' sole discretion, but for the dividend issues in first quarter through third quarter 2017 the discount for each issue may not exceed 10%. The subscription price for the ADR holders will be equal to the subscription price for the shareholders on Oslo Stock Exchange converted into USD using the Central Bank of Norway's average USD exchange rate over the same days as is included in the calculation of the subscription price.

Subscription and allocation of shares will be carried out in the same manner as described under agenda item 8.1 above.

Proposed resolution:

*"The general meeting of Statoil ASA hereby authorises the board of directors to increase the share capital in the company in accordance with section 10-14 of the Norwegian Public Limited Companies Act, on the following conditions:*

1. *The share capital may, in one or more rounds, be increased by a total of up to NOK 1,200,000,000.*
2. *The authorisation may only be utilized to increase the share capital in connection with the implementation of Statoil ASA's scrip dividend programme for first quarter through third quarter 2017.*

3. *The authorisation encompasses increase of share capital by way of set-off in accordance with section 10-2 of the Norwegian Public Limited Companies Act. The subscription price may be in both NOK and USD.*
4. *The authorisation shall be valid until the next annual general meeting, but not beyond 30 June 2018."*

#### **9. Proposal from shareholder to abstain from exploration drilling in the Barents Sea**

A shareholder has proposed the following resolution:

*"Statoil refrains from drilling exploration wells in PL859 (Korpfjell) and PL855 (Gemini North) whilst the question of whether the licenses granted in the 23rd licensing round are illegal and violate the Norwegian Constitution is still pending in the courts."*

The shareholder's supporting statement and the board's response is enclosed to this call for meeting and is also available at [www.statoil.com/agm](http://www.statoil.com/agm).

The board of directors recommends the general meeting to vote against the proposal.

#### **10. Proposal from shareholder regarding discontinuation of exploration activities and test drilling for fossil energy resources**

A shareholder has proposed the following resolution:

*"The board presents a strategy for, and environmental impact assessment of, full discontinuation of all new exploration activities and test drilling for fossil energy resources. The saved investment funds are presupposed to be earmarked for investments in renewable energy and energy efficiency measures for existing and sanctioned facilities. The strategy, including environmental impact assessment, will be presented in the annual report for 2017/18."*

The shareholder's supporting statement and the board's response is enclosed to this call for meeting and is also available at [www.statoil.com/agm](http://www.statoil.com/agm).

The board of directors recommends the general meeting to vote against the proposal.

#### **11. Proposal from shareholder regarding risk management processes**

A shareholder has proposed the following resolution:

*"Whereas, Statoil's internal risk management/assessment practices are vital to its corporate business operations, investment decisions, financial wellbeing, and legal status, the board of directors, in their risk management oversight functions, should direct Statoil Management to appoint a new Chief Geologist with a clear mandate to reinstate updated versions of pre-merger actuarial based risk management processes, and thus replace existing corrupted post-merger practices which are prone to severe technical bias and manipulations, and which have greatly damaged, and continue to seriously impair, shareholder value, as well as value creation."*

The shareholder's supporting statement and the board's response is enclosed to this call for meeting and is also available at [www.statoil.com/agm](http://www.statoil.com/agm).

The board of directors recommends the general meeting to vote against the proposal.

The Corporate Governance report for 2016 is included in Statoil's annual report chapter 3 available at [www.statoil.com/agm](http://www.statoil.com/agm).

The general meeting shall carry out a consultative vote regarding the Corporate Governance report, and the board proposes that the general meeting endorses the report.

#### **13. The board of directors' declaration on stipulation of salary and other remuneration for executive management**

In accordance with section 6-16a of the Public Limited Liability Companies Act, the board of directors shall prepare a declaration on stipulation of salary and other remuneration for executive management. The declaration is included in Statoil's annual report chapter 3.12 and note 4 in the financial statements Statoil ASA available at [www.statoil.com/agm](http://www.statoil.com/agm).

In accordance with section 5-6 third paragraph of the Public Limited Liability Companies Act, the general meeting will consider the board of directors' declaration itself by an advisory vote (item 13.1), whilst the part of the declaration that relates to remuneration linked to the development of the company's share price is subject to approval by the general meeting (item 13.2).

Remuneration linked to the development of the company's share price is described in the declaration in the annual report chapter 3.12, section Company Performance Modifier, where the board proposes that the company performance modifier approved by the annual general meeting in 2016, is continued in 2017. The performance modifier is linked to the company's financial results and applied in assessment and decision of variable pay for executive management.

The board of directors recommends that the general meeting endorses the board of directors' declaration (item 13.1) and approves the proposal related to remuneration linked to the development of the company's share price (item 13.2).

**13.1. Advisory vote related to the board of directors' declaration on stipulation of salary and other remuneration for executive management**

	From	To

**17. Authorisation to acquire Statoil ASA shares in the market to continue operation of the share savings plan for employees**

Since 2004, the company has offered a share saving plan for employees in the group. The purpose of this scheme is to augment good business culture and encourage loyalty through employees becoming part-owners of the company. In Norway, approximately 80% of the employees participate in the share saving plan. At the annual general meeting in 2016 it was decided to authorise the board of directors to acquire shares in the market for this purpose. This authorisation expires on the date of the annual general meeting in 2017, but no later than 30 June 2017. It is proposed that the general meeting gives the board of directors a new authorisation to acquire shares in the market, in order to continue the company's share saving plan.

Proposed resolution:

*"The general meeting of Statoil ASA hereby authorises the board of directors to acquire Statoil shares in the market on behalf of the company. The authorisation may be used to acquire own shares at a total nominal value of up to NOK 35,000,000. The minimum and maximum amount that may be paid per share will be NOK 50 and 500 respectively."*

*Shares acquired pursuant to this authorisation may only be used for sale and transfer to employees of the Statoil group as part of the group's share saving plan, as approved by the board of directors.*

*The authorisation shall be valid until the next general meeting, but not beyond 30 June 2018. This authorisation replaces the previous authorisation to acquire own shares for implementation of the share saving plan for employees granted by the annual general meeting on 11 May 2016."*

#### **18. Authorisation to acquire Statoil ASA shares in the market for subsequent annulment**

The board of directors proposes that the annual general meeting grants the board of directors an authorisation to repurchase up to 75,000,000 own shares in the market (approximately 2.3 per cent of the company's share capital) in accordance with the Norwegian Public Limited Liability Companies Act section 9-4.

The reason for the request for such an authorisation is to enable Statoil's board of directors to utilise this mechanism permitted by the Norwegian Public Limited Liability Companies Act with respect to the distribution of capital to the company's shareholders. The repurchase of own shares will also be an important means of continuously adjusting the company's capital structure in order to make it more expedient. Such authorisation is common in many listed companies. The repurchase of own shares benefits shareholders by the remaining shares representing an increased ownership interest in the company.

It is a precondition that the repurchased shares are subsequently annulled through a resolution by a new general meeting to reduce the company's share capital. It is also a precondition for the repurchase and the annulment of own shares that the Norwegian State's ownership interest in Statoil is not changed. In order to achieve this, a proposal for the redemption of a proportion of the State's shares, so that the State's ownership interest in the company remains unchanged, will also be put forward at the general meeting which is to decide the annulment of the repurchased shares. The State currently has an ownership interest of 67 per cent, and the total repurchase/redemption and annulment could thus involve up to 227,272,727 shares (approximately 7.0 per cent of the company's share capital).

It is a precondition for the board of directors' request for authorisation to repurchase own shares that Statoil and the Norwegian State represented by the Ministry of Petroleum and Energy, have entered into an agreement whereby the Ministry undertakes to vote in favour of authorisation of the acquisition of own shares, their subsequent annulment and the redemption of a corresponding number of the State's shares. On redemption of the shares, Statoil will pay a price to the State for each share corresponding to a volume-weighted average of the price paid by Statoil for shares purchased in the market plus interest compensation calculated from the date of the individual repurchases until payment is effected.

*Proposed resolution:*

*"The general meeting of Statoil ASA hereby authorises the board of directors to acquire in the market on behalf of the company, Statoil shares with a face value of up to NOK 187,500,000. The minimum and maximum amount that can be paid per share will be NOK 50 and NOK 500, respectively. Within these limits, the board of directors shall itself decide at what price and at what time such acquisition shall take place.*

*Own shares acquired pursuant to this authorisation may only be used for annulment through a reduction on the company's share capital, pursuant to the Norwegian Public Limited Liability Companies Act section 12-1.*

*The authorisation shall be valid until the next annual general meeting, but not beyond 30 June 2018."*

#### **19. Marketing Instructions for Statoil ASA – adjustments**

On 25 May 2001 the annual general meeting of Statoil adopted the "Marketing Instruction for Statoil ASA" (Marketing Instruction) which requires Statoil to market oil and gas produced from the State's direct financial interests in the petroleum sector ("SDFI") together with its own oil and gas. The overall objective of the marketing arrangement is to maximize the total value of Statoil's petroleum and the State's petroleum, and to ensure a fair distribution of the total value generated. In order to comply with this objective, a potential need for making certain adjustments to the applicable pricing- and allocation principles for natural gas, and in particular liquified natural gas (LNG) under the Marketing Instruction have been identified. The board of directors supports the proposal and recommends that the annual general meeting adopts a decision that necessary adjustments to the Marketing Instruction can be made. The adjustments as such will be made by the State represented by the Ministry of Petroleum and Energy. The board of directors will follow up on the adjustments made.

On this basis, the board of directors asks the annual general meeting to adopt the following resolution:

*"The annual general meeting approves that adjustments in the Marketing Instruction for Statoil ASA, adopted by the annual general meeting on 25 May 2001, can be made to the provisions concerning applicable pricing- and allocation principles for natural gas, and in particular LNG, so that Statoil has the necessary incentives to maximize the total value of the State's and Statoil's petroleum and ensure fair distribution at any time. The adjustments are made by the Norwegian State represented by the Ministry of Petroleum and Energy."*
