

Top mill tool

The offer comprises technology for an eccentric top milling tool for milling casing and tubular. The technology allows for utilization of more of the milling-blade width when milling of casing and tubular, thus increasing the efficiency of milling operations due to increasing the durability of milling blades.

Current areas of use:

Top milling and reaming operations

Equinor offer:

Standard non-exclusive license agreement

If this technology is of interest to your business please contact Equinor Technology Transfer, ETT@Equinor.com
Please be advised that a license is subject to compliance with Equinor's general conditions, policies and strategy.
